Jamaica, &c. The President's Speech to the Council and Assembly, with the Assembly's Address; and the President's Answer, November 2, 1736.

Gentlemen of the Council, Mr. Speaker, and Gentlemen of the Assembly,

HAVE called you together at this Time, not only as the most reasonable to you, in regard to your Private Affairs, but likewise as necessary in regard to those of the Publick.

The present State of your Country, and the Evils which attend it, require your Consideration: As these Evils are many, and but too obvious, I will only instance the Loss of all valuable Trade, the extreme Poverty of the Country, drained of Money, and no Channel open for a Supply; the heavy Taxes, necessarily imposed, to preserve us from the Rebels; and to compleat our Misfortunes, the low Price of our Principal Commodities. These Evils are all very great; and if any one can be said to equal the other, this last in particular must sensibly affect us, and not only discourage the further settling the Island, but even oblige those who have made Settlements, at a considerable Expence, to abandon them, when, after a painful and laborious Life, in the midst of Danger, they can see no other Fruits from their Labours, than the Prospect of being in Debt and undone: These Consequences are far from Imaginary, we have already seen them experienced in Part, and have but too much Reason to expect their Increase.

I wish, Gentlemen, it was as much in my Power to represent your Misfortunes, as it is to represent them to you; that Difficulty seems too great for this Country; an Application must be to his Majesty, from whose Goodness we may hope some Relief; and by his Influence, our Mother Country to restore us: This, I think, we have great Reason to hope; for if the attempt to reclaim the Desolute and Profligate has been worthy of Care, how much more the Preservation of the Honest and Industrious, whose Labours have been so beneficial to Great Britain.

Mr. Speaker, and Gentlemen of the Assembly,

I will order the Publick Accompts to be laid before you, and shall be glad you may find the Funds likely to answer the Purposes intended. I have Reason to believe, the Receiver General has been under some Difficulty to subserve the Soldiers and the Parties, from the scarcity and advanced Price of Provisions; tho' I must do him Justice, he has always punctually complied with my Orders.

I am sorry I cannot say the Parties have succeeded to my Wishes, I have been sometimes disappointed; and I must observe to you, there is not only Difficulty in raising these Parties, but still greater to engage proper Persons to conduct them. Every Officer is not equal to bear the Fatigues of the Woods; and of such as are, little Service can be expected, if sent out against their Inclinations. In my Opinion, some Allowance should be allowed to encourage that Duty. These Difficulties will in some measure be removed, when the Barracks are established; but hitherto that Work proceeds very slowly. I have given it all the countenance I have been able; tho' it might be extended the Necessity and Usefulness of the Work would be sufficient to recommend itself.

Gentlemen of the Council, Mr. Speaker, and Gentlemen of the Assembly.

It will be in your own Power to make this Session as short as you please; and, as it will probably be the last in which I shall have the Honour to speak to you in this Station, I shall leave it with the greater Satisfaction, if you will first give me an Opportunity of joining with you in any good Offices for you, I have hitherto used my Endeavours to serve you; and, where I have failed, or been guilty of Errors, I have this to excuse them; they must have proceeded from the Understanding, and not from the Will; which has been always truly devoted to your Interest.

Jamaica, &c. To the Honourable John Gregory, Esq; President of the Council, and Commander in Chief in and over this his Majesty's Island of Jamaica, and the Territories theron depending in America, and Chancellor of the same, &c.

The humble Address of the Assembly.

May it please your Honour,

WE his Majesty's most dutiful and loyal Subjects, the Assembly of Jamaica, beg Leave to return you our most sincere and hearty Thanks, for your Speech at the Opening of the Sessions.

THE several Matters which your Honour has so justly pointed out, and recommended to our Consideration, must be confessed to be of the utmost Importance to the Welfare of this Island, and consequently, do deserve the most serious and mature Deliberations of this House; and we assure your Honour, we shall proceed upon them with the greatest Unanimity and Dispatch.

We wish it were as much in our Power to find out Remedies for the Hardships under which the Island Labours, as it is easy to point out the Sources of them.

THAT which more immediately presses us, and requires the particular Attention and Consideration of all the Parts of the Legislature, is the late excessive fall of our principal Commodities, Sugar and Rum; the one of which is become of very little Value; the other of none at all.

As this Misfortune does not take its Rise, so neither can it meet with a Remedy here; and we assure your Honour, we shall readily concur and assist in any such Measures and Applications, as shall appear most likely to procure its Removal.

His Majesty's known Goodness, and the tender Regard which upon all Occasions he expresses for the Interests and Welfare of his Subjects in general, afford us the strongest Grounds to hope for all the Succour and Relief which his Power and Influence can procure for us.

AND as this Island is allowed to be of the utmost Importance to Great Britain, both with respect to its Trade and Manufactures, we cannot doubt, but his faithful Subjects there, will cheerfully concur with his Majesty, in his gracious Endeavours to retrieve its Affairs, and restore it to its prosperous and flourishing Condition.

We beg Leave, upon this Occasion, to express our entire Approbation of your Honour's Conduct, and return you our hearty Acknowledgements and Thanks, for the Integrity, Zeal and Prudence, which your Honour has exerted upon all Occasions, during the whole Course of your impartial Administration.

Passed the Assembly — the Ninth Day of November, 1736.

William Nedham, Speaker.

His Honour's ANSWER.

Mr. Speaker, and Gentlemen of the Assembly,

I return you my hearty Thanks for this very kind Address, and for your generous Acknowledgement of my weak, tho' sincere Endeavours to serve you; your favourable Opinion of my Conduct, gives me great Satisfaction, and it shall be my constant Care to merit your Esteem, by giving you the best Testimonies in my Power, of my real Affection to this Country.

One of the Rogues met him descending the Hill, and to decoy him out of the Road (being near Capt. Webb's House) related a pretended Accident that had befallen one of Captain Webb's Servants, by breaking his Leg, and desired his Assistance; the Surgeon readily rode into the Wood, where he saw the other Foot Pad holding his Leg, and making wry Grimaces as if in much Torture; he no sooner lighted off his Horse, and stoop'd to see the Fellow's Leg, but he was knocked down with a square Staff about five Foot long, his Hands tied back with Whipcord, his Pockets plundered, and a Gold Ring taken off his Finger, which they dropt among the Bushes, and imagining People were coming, damn'd the Ring and said, let's go off;

The uncommon Success, above Thirty Years last past, of so much famed and only true Original ROYAL CHYMICAL WASH-BALL,

FOR beautifying the Face, Neck and Hands, hath induced many Envious Persons, not in every Part of London, but in many Places in the Country to sell a Counterfeit White Ball (which may prove prejudicial as well as ineffectual) in Imitation of the true ones.

To prevent as much as possible any Mistakes in Preluding our Customers, we give this special Notice, That the True Sort are now sold only at Mrs. King's Toyshop, the Blue Boy, against the Cross-Keys Tavern in Cornhill; and at Mr. Giles's, a Miliner, at the Blue Ball near Hercules-Pal Alley, by the Temple in Fleet-street. Price 1s. each Ball 12 to the Dozen; but no Allowance for less than 12 Balls a Time, nor will they ever be sold any where else, except in these Advertisements of it.

Their true and real Virtues have been sufficiently attested all the Years they have been Sold by Publication, and so, as they are still more than ever used and admired by the Sexes of the best Quality, and many Thousands of Men and others, for making the Skin so delicately soft and fine as not to be paralleled by any Wash or Wash-ball, &c. of Kind or Form; for these Balls are indeed real Beautifiers of the Skin, by taking off all Deformities, as Tetter, Ringworm, Morpheus, Sunburn, Scurf, Pimples, Pits, or Redness of Small-Pox, and keeping it of a lasting and extremly White; they soon alter red or rough Hands, are admirable in the Head, they not only give a most exquisite Sharpness to the Razor, but so comfort the Brain and Nerves, as to prevent catching Cold. They are of a grateful and pleasant taste, without the least Grain of Mercury, and may be used without their Safety.
